

Canutillo ISD Career and Technical Education Department is BUILDING FUTURES with FUTURE BUILDING in order to keep our CTE programs relevant and up-to-date with the growing and ever-changing world of work.

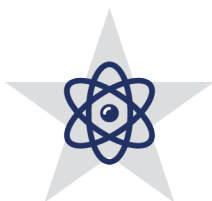

It is our goal and commitment to offer the most real-world experience possible to our students the moment they walk into a CTE classroom.

Together we can do the possible of...BUILDING FUTURES with FUTURE BUILDING, a CISD CTE Expansion Project!

BUILDING FUTURES with **FUTURE BUILDING**

CURRENT & EXISTING CTE PROGRAMS OF STUDY
TO BE TRANSITIONED INTO THE PROPOSED CTE
EXPANSION BUILDING

SCIENCE, TECHNOLOGY, ENGINEERING, MATH (STEM)

- › Current STEM Programs – BioMedical, Engineering
- › New STEM Program – Cybersecurity
- › Program Needs: requires larger/workshop-style classrooms, safer & more efficient space for projects, more up-to-date equipment & supplies, separate project/work & classroom spaces, expansion allows for more industry-based certification opportunities

MANUFACTURING

- › Current Program – Advanced Manufacturing & Machinery Mechanics (Robotics)
- › Program Needs: requires larger/workshop-style classrooms, safer & more efficient space for projects, more up-to-date equipment & supplies, separate project/work & classroom spaces, expansion allows for more industry-based certification opportunities

HEALTH SCIENCE (Medical)

- › Current Programs -Dental Assistant, Patient Care Technician, Pharmacy Technician, Medical Assistant
- › New Health Science proposed program: Healthcare Diagnostics (Imaging Technology)
- › Program Needs: requires larger/medically-equipped classrooms, safer & more efficient space for projects, more up-to-date equipment & supplies, separate project/work & classroom spaces

ARCHITECTURE & CONSTRUCTION

- › New Architecture proposed program: Electrical Trades
- › Program Needs: requires larger/workshop-equipped classrooms, safer & more efficient space for projects, more up-to-date equipment & supplies, separate project/work & classroom spaces, expansion allows for more industry-based certification opportunities
